Rent invoice

You can find your rent invoices on "My Pages" around the 25th of each month. You will receive an email notification when a new invoice is available. If you do not receive an email, please check that your notification settings are set to email under "My Contact Information."

Rent is always paid in advance. When making a payment, only enter the OCR number in the message/reference field. After payment, it may take up to a week before the payment status for the invoice is updated to "paid" on My Pages.

For complete payment details and a specification, please click "Download as PDF."

Electricity and water consumption

Electricity and water are included in the rent, so you do not need to sign an electricity contract.

Home insurance

It is important that you take out a home insurance policy and that the home insurance is valid throughout your rental period, as stated in your rental contract. Home insurance means that you can receive compensation for your belongings (personal property) if they are stolen in a burglary or destroyed in a fire, as well as cover for damage to the property that you may cause.

Fault report

Submit a fault report via "My Pages" if something is broken or not working in your home or in a common area.

Broadband

There is an active network socket in every apartment. In your room, the socket is located in the hallway. If you want wireless internet in your home, you will need to get your own Wi-Fi router and connect it to the socket. Any issues with the internet connection should be reported to Bredband2.

Mailbox

You'll find your mailbox in the basement, and you use your mailbox key to access it.

Laundry information

Your laundry room is located in the basement of Studentvägen 12. You book the laundry room using your tag on the screen outside the laundry room. You have 10 laundry sessions per month and can book two sessions at a time. If you forget to cancel a session, it will be counted as used even if you don't use it. Leave the laundry room in better condition than when you entered.

Roommates

In corridor rooms, it is not permitted for more than one person to live in the same room.

Storage unit

Your room comes with a designated storage unit. You'll find your storage unit in the basement of your building, marked with your object number. You need to provide your own padlock to secure the unit.

Bike Storage

You'll find the bike storage in the basement of Studentvägen 14.

Recycling

On the premises, there are recycling stations and recycling rooms where you can easily dispose of your waste. Other types of waste that cannot be sorted into the existing categories—for example, electronics, corrugated cardboard, etc.—can be left in our recycling rooms located between buildings 4 & 6 and at the back of building 37

Composting bags

In Uppsala, compost should be disposed of in paper bags. You can find compost bags in the recycling room between buildings 4 and 6, as well as at the back of building 26. Your key works in the lock.

Bulky waste

At Studentvägen 10 and Studentvägen 32b, there are containers for bulky waste. Your key works in the padlocks of the container doors. Other types of waste that cannot be sorted into the existing categories, such as electronics, cooking oil, etc., can be left in our recycling rooms located between buildings 4 & 6 and at the back of building 26.

Sauna

You have access to the sauna in house 8.

You book the sauna using the sign-up sheet by the the sauna.

Music room

At Studentvägen 26, there is a music room that you can use to play instruments or practice singing. The room has a piano. To gain access to the music room, please contact the administration office.

Ping pong room

Our ping pong room is located in the basement of Studentvägen 7. Please contact the office if you would like access to the room

Parking lots

Through the apps EasyPark and Parkster you can buy tickets for our marked parking spaces in the area and the zone code is 62427. It is the same hourly rate that the municipality uses on the road around the area. Keep in mind that it is the municipality's land and their parking rules apply there. In the Parkster app there is a monthly ticket that you tenants can buy. To buy it, you need a password and it is 1957. The monthly ticket costs 310 SEK. Do not spread the code further! We have the option to change it if we notice that it becomes a problem that others than our tenants park here long-term. Keep in mind that only bicycles may be parked in our bicycle racks and any vehicles parked there risk getting parking fines.

Garage

Garages are available for rent. Contact the office to be added to the waiting list.

Lost keys

If you lose your key or tag, please first contact the police. Then, visit the office at Studentvägen 2C to obtain new keys and/or tags. You will be charged for all associated costs. If your key or tag stops working, please visit the office or email info@studentvagen.se, and we will assist you.

Termination

You can terminate your housing contract yourself via 'My Pages' on nationsgardarna.se. The notice period is 3 months, starting from the first day of the month following your notice. For example, if you give notice in March, the notice period will be April, May, and June, and your contract will end on June 30.

The move-out date is always the first weekday of the month following the contract's end date. If the move-out date falls on a Saturday, Sunday, or public holiday, the move-out must instead occur on the next weekday.

Inspections

Approximately one month or a few weeks before your rental agreement ends, we will schedule and carry out a preliminary inspection of the room.

The purpose of this inspection is to assess the condition and wear of the room and to plan any necessary measures before the next tenant moves in.

Normal wear and tear is, of course, taken into account during the inspection and will not be your responsibility.

The preliminary inspection is carried out while the room is still occupied, so it does not need to be emptied or cleaned beforehand.

Move-out cleaning

Move-out cleaning of the room, including the hallway, bathroom, and closets, will be handled by the landlord.

Move-out cleaning of the basement storage unit, as well as the cupboards, drawers, freezer compartment, and refrigerator shelves in the kitchen that belong to the room, is your responsibility as the tenant.

If you fail to complete your part of the cleaning, a charge for at least two hours of labor will be applied.

Return of keys

Keys to the apartment must be returned to the Foundation no later than 9:00 AM on the move-out day, which is the first weekday after the contract end date.

For example, if your contract ends on January 31st, the keys must be handed in by 9:00 AM on February 1st.

You may leave the keys (clearly labeled with the object number and your name) in our mailbox at Studentvägen 2C.

If the keys are returned late, the departing tenant will be charged for a new key and tag.

Tenant reference

If you require a tenant reference, please contact info@studentvagen.se. We provide written references to you as a tenant, which you can then forward to a prospective landlord.

Subletting

All subletting must be approved by us. If your subletting is not approved, you risk having your tenancy terminated.

Email us at info@studentvagen.se or visit the office if you need a subletting application form.

The form must be submitted together with proof of your exchange studies or off-campus studies (e.g. internship) through Uppsala University or the Swedish University of Agricultural Sciences during the subletting period.

You must also include a photo of your nation membership card, as well as the subtenant's certificate of registration and nation card. The subtenant must be a member of the student nation affiliated with the housing, and a full-time student at Uppsala University or the Swedish University of Agricultural Sciences.

To be eligible to sublet your apartment, you must have lived in it for at least 6 months.

Send the complete application by email to info@studentvagen.se.

Property Emergency Service

For urgent issues related to water, sewage, and electricity outside office hours, please contact Bravida at 018-10 04 10. For urgent issues related to windows and glass outside office hours, please contact Securitas at 010-770 57 69.

Note: An emergency service fee may be charged to the tenant if the issue was caused by the tenant's negligence or if the repair could have been postponed without complications and handled later by our staff.

Lockout assistance

For lockout assistance outside of office hours, contact Securitas at 010-470 57 69.

You must present valid ID and prove that you live in the apartment.

Provide your address when requesting assistance.

The lockout service fee is paid by the tenant directly to Securitas on site.

House rules

We want you and your neighbors to feel as comfortable as possible living with us.

Therefore, we have put together a list of house rules that apply in our residences.

- Please be considerate of your neighbors during late evenings and nights.
- Celebrating after an exam? Inform your neighbors well in advance and be prepared to lower the noise level if anyone is disturbed. Next time, it might be you who has an exam at 8 AM the following day.
- Corridors, stairwells, and basement areas are emergency exits and must be kept clear for your safety and that of the fire department. Therefore, you may not store items such as bicycles, furniture, or shoes in these areas.
- Take care of the laundry room and leave it in better condition than when you arrived.
- Smoking is prohibited in all common areas.
- Pets are not allowed in corridor rooms.
- You are responsible for checking your smoke detector. If it needs new batteries, you are welcome to visit the office, and we will assist you.
- Report any faults or malfunctions in your home or common areas through "My Pages."

Smoke detector

You are responsible for checking your smoke detector. If it needs new batteries, you are welcome to visit the office at Studentvägen 2C, and we will assist you.

Pests

At the slightest suspicion of pests, you must immediately submit a fault report via "My Pages" at nationsgardarna.se, and we will contact you.

Pets

Pets are not allowed in our corridor rooms.

In our family apartments at Studentvägen 3, 7, 9, 11, 13, 15, and 17, pets are permitted.

If pets have been kept in the apartment, please inform us when booking the inspection.

In case of increased wear and tear to the apartment or if sanitation is required, additional costs may apply.

Defrosting the freezer

Defrost the freezer twice a year, or more often if needed.

Stove guard

A stove guard is installed next to the stove in your kitchen. This is a requirement from the local fire and rescue services. If the stove guard is misused or tampered with, we may need to take action to ensure it functions properly.

Important! If the stove guard is moved or removed, the stove will not work.

To use the stove, you must first press the timer button located next to it. The heat sensor activates automatically, and if it detects excessive heat—such as dry boiling or a burner being on without a pot or pan—it will sound an alarm and shut off the stove until the burners have cooled down.

Here are some tips for cooking with a stove guard installed:

- Make sure the pot or pan fully covers the burner. If you remove the pot or pan while the stove is still on, the stove guard will trigger and cut the power.
- You can temporarily deactivate the heat sensor by pressing the small button at the end of the sensor unit, located just below the range hood. This gives you 4.5 minutes where the sensor will not react to heat. This can be useful if you need to, for example, drain pasta. But don't forget to put the pot back on the burner—with water in it—so you can continue cooking.
- Try turning the heat down when it's not needed. Once the water has started to boil, you can reduce the heat a few steps to avoid excess heat rising along the sides of the pot, which may trigger the stove guard.

Domestic violence prevention

Domestic violence prevention is about taking action to prevent, stop, and reduce violence in close relationships—especially men's violence against women, but also violence toward children, men, and other family members.

National safety surveys show that most people who experience domestic violence do not report it. Many live with violence on a daily basis.

Every year, around 20 people are killed in Sweden due to violence from a partner or family member. Most victims are women, but children and men also lose their lives to domestic violence. Each day, 50 cases of domestic violence are reported—most happening in the home, a place that should be the safest in the world.

Out of care and concern, we ask you to:

- Knock on your neighbor's door if you're worried about possible violence.
- Get help from others if needed. More neighbors increase safety.
- Call the police. Always contact the police first in situations that feel urgent or threatening.

Just knocking on the door could save a life.

DoNation

DoNation We have a recycling room where tenants can leave their things if they are moving out, and those moving in are welcome to browse and pick up things they need for their new home. Upholstered furniture such as armchairs, beds, etc. is not allowed to be dropped off. If you want to get rid of upholstered furniture, please post it on “Studentvägen köp och sälj” on Facebook. The donation is located behind the old pizzeria at house 3. To gain access to the room, you must come to us at the expedition on Studentvägen 2C and pick up a key that you must sign out. The room will be available Monday-Friday between 08:00 and 15:00. We want you to mark the date you leave your things with a post-it note so that we can clear out the things that no one wants after a while. Post-it notes and pens will be on site to mark your things with. Of course, all things you hand in must be intact and clean.

Bicycle workshop

There is a small bicycle workshop in the bicycle cellar at building 9. You can stand and work on your bicycle inside the marked box. You enter the space with your tags. Those of you who live in the newly built buildings 2B, 32A, 30A, 20B, 20C and 22B can come into the office at Studentvägen 2C and sign for a loan tag. If you want to borrow extra tools, you can sign for them at the office at Studentvägen 2C during the day.

Carpool

There is a carpool where you as a student can rent an electric car. If you live at Rackarberget, you get free membership with OurGreenCar, which owns the carpool, you

only pay for the time you book and the distance you drive. You can easily book the electric cars in the OurGreenCars app! After you become a member and download the OurGreenCars app, you can use the app to get into the car at your booked time. You pick up and drop off the cars at parking spaces 313 and 314 at Rackarbergsgatan 32. All the cars run on electricity and are therefore a climate-smart transport alternative. To see prices and become a member of the carpool, go to:

<https://uhrackarberget.ourgreencar.se/> There is a small bicycle workshop in the bicycle cellar at building 9. You can stand and work on your bicycle inside the marked box.
